

## **Kim Beck Bio**

Hello, my name is Kim Beck and I am a Wisconsin native. Originally from the Mt. Pleasant area, where I am 6th generation on Fink Family Farm but first generation to show cattle.

My early years were spent showing at the Racine County fair with my local 4-H and World Beef Expo in the Open Show. After aging out of 4-H, I continue showing in open shows like World Beef Expo and my local county fairs.

With a bachelor's in Dairy Science from UW Platteville, I primarily raise registered and commercial American British White Parks and Herefords with my husband, family, and our son, on a combined family farm, Becks Family Farm, in Rochester and Burlington WI. We have about 60 cow calf pairs and finish out about 20 Market steers, with a couple of Shorthorns.

World Beef Expo is an important part of my show experience. The opportunity to be on the World Beef Expo board will allow me to pass on the traditions and create great show experiences for generations to come.
