

Leslie Walker Bio

I am from Danvers, IL. My father Paul and I run DI Simmental. We are small show cattle operation, were our primary focus is raising and showing quality livestock that excel not only in phenotypically but genotype as well. We were extremely active with the American Simmental Association during my junior career. Since aging out we help our JR customers become active in all the programs that the AJSA has to offer.

I attended Lake Land College and the University of Illinois where I was a member of both livestock judging teams. I earned a degree in Finance in Agribusiness. I am currently Ag loan officer with Longview Community Bank in Mount Pulaski, IL.
